

The Winter University Program

What we offer?

The Winter University Program at Hochschule Darmstadt is a short-term program taught in English. During this 3-week program, scientific knowledge will be enhanced by practical learning with hands-on experiences during field trips and company visits. Participants can choose between two modules:

- **Mechanical Engineering in Modern Power Plants**
- **International Marketing and Sales**

Students will have the opportunity to establish valuable contacts, which will be important for their future careers. To complement the classroom work, excursions to near and distant sights, cultural learning and lots of leisure activities outside the classroom are included in the programme.

Why Darmstadt?

Darmstadt with its 150.000 inhabitants is at the heart of Europe, right within the vibrant Rhine-Main metropolitan area. It is located next to Frankfurt, the financial center of Europe and home to the European Central Bank (25 min) and is within easy reach of France (1 hr), Switzerland (4 hrs) or The Netherlands (5 hrs).

Participants

The program is aimed at motivated undergraduate and graduate students and young professionals from all over the world with a background in Business Administration, Management Studies, Marketing, Mechanical Engineering, Mechatronics, Materials Engineering, Electrical Engineering or related disciplines.

The program includes

- Academic seminars, project work and lectures taught in English
- Hands-on experiences in labs and during field trips and company visits
- Sightseeing and other cultural activities
- An international and intercultural classroom
- Instruction by professors and practitioners, engineers and experts in the field
- German language classes for beginners and advanced learners
- Participants can receive 6 ECTS-credits in total

Program fee

€ 1.790 (early-bird fee) for applications received by September 1, 2016

€ 1.990 for applications received after September 1, 2016

Application deadline: November 1, 2016

The package fee includes:

- Accommodation
- Tuition and course related activities including company visits and field trips
- Lecture material for seminars and German language classes
- Cultural and leisure activities
- Public transportation within Darmstadt
- Health, accident, and liability insurance
